# ECD Vent Trap Kit

(Includes ECD Vent Trap and 9-inch piece of copper tubing)

cat.# 22017

1. Connect the 9-inch piece of copper tubing to one end of the ECD vent trap.

2. Connect the other end of the ECD vent trap to the existing ECD vent line.

3. Position the ECD vent trap in the GC as desired. Avoid placing the trap in locations where it could be broken.
